

DigiDecom 2021 – DIGITAL

Online international workshop focusing on digital transformation, robotics and other game changing trends in nuclear decommissioning

DigiDecom events are organized under IFE's designation as an
IAEA International Collaborating Centre

DroneMob

The 2021 workshop will support and disseminate results from the SHARE www.Share-h2020.eu

PLEIADES pleiades-platform.eu and

PREDIS predis-h2020.eu Horizon 2020 projects

RoboDecom

3D mapping UGV system

Sensor and Avoid Path planning Wireless com.

MAGICS® TECNUBEL Your project needs our care

and
LiveDecom ife.no/livedecom/
Norwegian funded international projects

Facilitate finding a roadmap for innovation

- Identify and discuss innovation needs based on experience from completed, on-going, and up-coming decommissioning projects
- Future landscape and foreseen innovation needs

Connect the dots together

- Connect emerging techniques with industry needs
- Integrate existing and emerging technologies like digital twins, robotics, machine learning, computer vision, mixed reality, IoT, ...

Identify barriers and facilitators

- Technology, organizational, and other barriers that need to be overcome to succeed with digitalisation, robotics and other technology based transformation
- Assets that can facilitate innovative applications

Facilitate partnerships

- Connect innovators with future users and regulators
- Connect people working towards similar goals or with similar needs
